## **HT Calibration Statement**

Please be advised that the manufacturer of your Key International, Inc. Model HT-300 and HT-500, as well as the HT-300S and HT-500S, recommends that these Tablet Hardness Testers be calibrated every six (6) months to ensure proper operation. Please note that the proper calibration procedure must be followed for each machine, based upon the unit's serial number. The proper calibration procedures can be found at the Key International website: [www.keyinternational.com](http://www.keyinternational.com).

Signed,

A handwritten signature in black ink, appearing to read "Erik Voorhees".
