

CORA® COMPENSATOR

Flexible sleeve that connects two machines

The CORA COMPENSATOR is a flexible sleeve that connects two pieces of machinery when rigid connections cannot be used due to vibration or off-axis. It can also be used in light overpressure/depression. The CORA COMPENSATOR is connected through a clamp band that can be opened easily when you need to sterilize the sleeve. It is also available with copper wire to ensure electrical conductivity.

FEATURES:

- Designed to connect two pieces of machinery when rigid connections cannot be applied
- Connected through a clamp band and easily opened when you need to sterilize the sleeve
- Can tolerate light pressure and depression
- Designed for stringent FDA sanitary requirements
- Suitable for CIP or SIP
- Easy to detach, disassemble and thoroughly clean

AVAILABLE SIZES:

- 4" (100mm) diameter with lengths of 70mm, 100mm and 150mm
- 6" (150mm) diameter with lengths of 65mm, 100mm and 200mm
- 8" (200mm) diameter with lengths of 70mm, 100mm and 200mm
- 10" (250mm) diameter with length of 100mm

MATERIALS:

- FDA transparent silicone and USP class VI transparent silicone
- Black antistatic EPDM
- White EPDM
- White FKM (Viton®)
